What MarketScan can Do For You

Create Your Own Searches and Watch lists - At the touch of a button you can identify which sectors are hot. The information you need to have before investing.

Combine Technical and Fundamental Information - Not only can you find financially sound stocks with your fundamental criteria, the technical information can help you with the timing of your trades.

Filter and Search Stocks of Particular Interest - The powerful search function allows you to build searches and tailor lists combining dozens of fundamental and technical criteria.

"Wild Card" Search - Scan the business summaries of companies or key personnel lists for a word that is of particular interest to you. (eg) Scan listed business summaries for the word "vaccine".

Industry Comparison - You can search for companies that are outperforming their industry group. (eg) All stock where the PE ratio is less than the industry average.

Analyse and compare business ratios to make a valued judgement and view detailed company reports.

Get the right information in the format that you want using the power of MarketScan. Includes comprehensive charting!
